Based on the previous reports, the patient's appearance was most consistent with a urethral polypoid cyst or a urethral condyloma. However, in this case, there was no history of condyloma, and the polypoid cyst initially disappeared after laser treatment and recurred several months later. To the best of our knowledge, we report the second case of endophytic urethral polypoid cyst that reappeared on repeated follow-up. Case report {#s0010} ===== A 75-year-old Japanese male presented with a 6-month history of perineal pain. He was admitted to our 1cb139a0ed
