The "Instant" PDF Text Extractor is a software utility which has been developed to enable you to extract the text present in a PDF document. The software is going to allow you to save text from any page of the document, as well as display it in a way that will make it easier to read. In addition to that, you can copy the text to the clipboard, as well as export it to MS Excel, so that you can modify it there and afterwards, re-import it to the document. Another exceptional function of this tool is the ability to process large numbers of PDF files at the same time. This is possible thanks to the fact that the software will automatically split up the processing of the files, so that they can be run simultaneously, without any interference. Once you have saved the extracted text, you can also enjoy the detailed information about the document. It includes information regarding the version and copyright, as well as a huge amount of information regarding the PDF files, such as the creator, the date of creation, the size and the number of pages included in the document. The "Instant" PDF Text Extractor comes with a "System Requirements" section, which details the minimum and maximum requirements that should be met in order to run the program successfully. The software enables you to choose the pages from the PDF document that you want to extract text from, as well as the way that you want to read it. After you have selected the documents you wish to extract text from, the tool will begin performing actions. It is possible to preview the text from any page using the standard print function in Microsoft Windows, or from a document file, by double-clicking the document. It is also possible to choose to save the text in a number of ways, such as into a text file, a clipboard file, a CSV file, an HTML file or any of the many formats supported by a PDF document. Alternatively, you can export the text to the MS Excel application, so that you can work on it in order to modify it. The program does not require installation, meaning that it can be run right from the disk it is saved on. The program is only included in the following version of Microsoft Windows: Windows 7 Windows 8 Windows 8.1 Windows 10 To sum up, the "Instant" PDF Text Extractor is a software utility that has been designed to enable you to quickly extract text from a single page of a PDF
